

# Who We Are

EVERYONE DESERVES A SAFE PLACE TO CALL HOME.

Refugee Housing Solutions (RHS) team members leverage their experience and expertise in affordable housing, hospitality, and refugee resettlement as well as strategy and program design to offer resources, an interactive and localized Housing Hub and Directory for effective housing systems navigation, and opportunities for innovative cross-sector partnerships.

**Refugee Housing  
SOLUTIONS**

Increasing access to **dignified  
affordable housing** for refugees and  
other newcomers to the United States.

## What We Do

RHS team members facilitate dialogue and collaboration on innovative housing solutions and provide informational and educational resources to ORR-eligible populations and service providers, refugee resettlement professionals, volunteers, housing providers and stakeholders, and private sector, community, faith, and government partners. Together, we help refugees and other ORR-eligible individuals find safe, dignified, and affordable housing in the U.S.

### HOUSING DIRECTORY

The Housing Directory is a central database of housing support services and resources for different locations across the United States. It helps refugees and other people involved in resettlement find important local housing information.

## Get Involved

Navigating and securing affordable housing as well as creating innovative solutions requires collaboration and coordination with a myriad of stakeholders. RHS endeavors to close gaps in housing challenges through effective and efficient housing support initiatives which strengthen communities' housing stability and ultimately foster successful integration and prosperity, creating a more connected and thriving nation for all.
